BELFAST SKIN CLINIC

Dr Pamela McHenry has launched the Belfast Skin Clinic to offer treatments for all skin disorders and related conditions including allergies, rheumatology and paediatrics by consultants who are recognised experts in their field, in a new dedicated, purpose-built facility.

We are delighted to introduce Northern Ireland's first Centre of Excellence for Dermatology and Associated Specialties including Plastic Surgery, Allergies & Immunology, Rheumatology and Paediatrics

EXCELLENCE IN DERMATOLOGY AND ASSOCIATED SPECIALTIES

CLINICAL SERVICES

Bringing together Dermatologists, Plastic Surgeons, Allergy Specialists, Rheumatologists and Paediatricians, the Belfast Skin Clinic provides a unique facility in a purpose built clinic with the latest technology for diagnosis and treatment of all skin, allergy and joint problems in adults and children.

PURPOSE-BUILT FACILITY

The clinic's bright and spacious interior creates the perfect setting for our patients to enjoy a comfortable and relaxing visit. Our facilities include 10 consulting rooms, an operating theatre, a laser suite and on site parking.

HIGHEST DESIGN AND INFECTION CONTROL STANDARDS

The clinic has been completely refurbished to an exemplary level incorporating the latest air ventilation control standards required by RQIA.

Operating Theatre
